RESEARCH INTERESTS

Environmental Economics;; Natural Resource Economics; Labor Economics; Applied Econometrics.

EDUCATION

Ph.D. in Applied Economics, Oregon State University 2022 – 2027 (*expected*)

Committee: Prof. David M. Kling (chair), Dr. Lisa Pfeffer, Prof. Steven Dundas, Prof. Dan Bigelow

M.S. in Applied Economics, Washington State University 2019 – 2021

B.S. in Business Administration (*magna cum laude*), Eastern Oregon University 2013 – 2015

JOB MARKET PAPER

Adapting to Environmental Risk: Evidence from the U.S. West Coast’s Most Valuable Fishery.
[Latest Draft](#)

Abstract: The effect of environmental shocks on natural resource-extracting firms is determined in part by regulations that constrain their activities. I evaluate how a novel policy to ensure seafood safety following marine heat waves, introduced in response to harmful algal blooms, influenced harvesters’ performance in the West Coast’s most valuable fishery. Granular, vessel-level microdata allows me to track behavioral adjustments made by individual vessels, including substitution in fishing location and changes in overall fishing effort. While prices received by vessels for their catch were lower under the policy than under a no-heatwave counterfactual, vessel behavior changed little in aggregate, and fleet production was largely unaffected. While the policy worked as designed by maintaining harvest flow when the fishery would otherwise be subject to temporary spatial closures, I find significant heterogeneity in vessel-level impacts, with small vessels worse off than large vessels. This research documents a case of largely successful regulatory adaptation to a climate-linked shock while also highlighting the differential effects on segments of the regulated industry.

WORKS IN PROGRESS

Shared Seas: Evaluating the Impacts of Emerging Ocean Uses on U.S. Fisheries. Working paper.
Joint-Quantity Quality Management and BMP Adoption. Working paper.

TEACHING

Oregon State University
Instructor of Record, Intro to Environmental Economics

Corvallis, OR USA
Summer 2023

Prepared problem sets, exams, and held office hours for undergraduate students. Students rated contribution to the course 5.4 on a six-point scale, compared with a departmental mean of 4.9, and the course overall 5.0 compared with 4.8.

RESEARCH ASSISTANCE

Research assistant to Prof. David M. Kling, Oregon State University

2023 – 2024

PROFESSIONAL ACTIVITIES

Presentations: The International Institute of Fisheries Economics & Trade (August 2026); Oregon State University Workshop (April, 2026); NOAA SeaGrant Symposium (August, 2025); Oregon State University Workshop (June, 2025)

AWARDS, FELLOWSHIPS AND GRANTS

National Marine Fisheries Service–Sea Grant Fellowship in Marine Resource Economics , 2024–Present

Phi Kappa Phi

Philosophy Student of the Year, Eastern Oregon University (2015)

Dean’s List, Eastern Oregon University, 6 terms

OTHER NON-ACADEMIC WORK

Staff Accountant, Insight Accounting Solutions

2022 – 2023
